Additional Staff Needed The Board discussed staffing needs of the conservation program. It has become apparent that an additional staff person on the maintenance side of the operation is long overdue and sorely needed. Staffing levels have remained constant for several decades and staff were originally set up essentially to perform general park maintenance of the Otter Creek Park facility. Needs at Otter Creek Lake & Park, and other facilities, have grown exponentially since the early years with inadequate staff hours available to address natural resource and vegetation management tasks (including invasive species control). The Board members discussed the need and instructed Etzel to include the cost of an additional Conservation Technician/Park Ranger position in the FY '20 budget proposal.

After discussion of several conservation topics it was moved by Atchison, seconded Adolphs to adjourn, carried. (all voting aye) Adjourned 9:25 p.m.
